Professional Summary

Experienced Full-Stack Developer with 5+ years of expertise in modern web technologies. Proven track record of building scalable applications using React, Node.js, and TypeScript. Strong problem-solving skills and passion for clean, efficient code. Demonstrated ability

Technical Skills

- Frontend Technologies: React, Vue.js, Angular, TypeScript, JavaScript, HTML5, CSS3, SASS
- Backend Technologies: Node.is, Express.is, Python, Django, RESTful APIs, GraphQL
- Databases: PostgreSQL, MongoDB, MySQL, Redis, Elasticsearch
- Cloud & DevOps: AWS (EC2, S3, Lambda), Docker, Kubernetes, Jenkins, CI/CD

to lead development teams and deliver high-quality software solutions on time.

- Development Tools: Git, Webpack, Babel, Jest, Cypress, VS Code
- Project Management: Agile, Scrum, Jira, Confluence

Professional Experience

Senior Full-Stack Developer | TechCorp Inc. | 2021 - Present

- Led development of customer-facing web application serving 100,000+ active users
- Implemented microservices architecture reducing system latency by 40%
- Mentored team of 3 junior developers and conducted code reviews
- Collaborated with product managers and UX designers to define technical requirements
- Increased application performance by 50% through code optimization and caching strategies
- Technologies: React, Node.js, PostgreSQL, AWS, Docker

Full-Stack Developer | StartupXYZ | 2019 - 2021

- Built responsive web applications using React and Redux for state management
- Developed and maintained RESTful APIs serving mobile and web clients
- Designed and implemented database schemas for complex business logic
- Improved application performance by 35% through query optimization
- Participated in agile development process and sprint planning
- Implemented automated testing suite increasing code coverage to 85%
- Technologies: React, Express.js, MongoDB, Docker, Jest

Software Developer | WebSolutions Ltd. | 2018 - 2019

- Developed frontend components using modern JavaScript frameworks
- Fixed critical bugs and implemented new features in legacy applications
- Collaborated with senior developers to learn best practices
- Participated in code reviews and technical discussions
- Improved user experience through responsive design implementation
- Technologies: JavaScript, HTML5, CSS3, jQuery, Bootstrap, Git

Education

Bachelor of Science in Computer Science

University of Montreal | Montreal, QC | 2014 - 2018

- Relevant Coursework: Data Structures, Algorithms, Software Engineering, Database Systems
- Senior Project: E-commerce platform with payment integration
- GPA: 3.7/4.0
- Dean's List: Fall 2016, Spring 2017, Fall 2017

Projects

E-Commerce Platform | Personal Project | 2023

- Built full-stack e-commerce solution with payment integration and inventory management
- Implemented user authentication, shopping cart, and order processing
- Used Next.js for server-side rendering and improved SEO
- Integrated Stripe API for secure payment processing
- Technologies: Next.js, React, Node.js, PostgreSQL, Stripe API
- GitHub: github.com/johndoe/ecommerce-platform

Task Management Application | Team Project | 2022

- Created collaborative task management application with real-time updates
- Implemented user roles, project organization, and notification system
- Used WebSocket for real-time collaboration features
- Deployed using Docker containers on AWS
- Technologies: React, Node.js, Socket.io, MongoDB, Docker, AWS
- Live Demo: taskapp.johndoe.com

Real Estate Portal | Freelance Project | 2021

- Developed property listing and search platform for local real estate agency
- Implemented advanced search filters and interactive map integration
- Created admin panel for property management
- Optimized for mobile devices and search engines
- Technologies: Vue.js, Laravel, MySQL, Google Maps API

Certifications

- AWS Certified Developer Associate | Amazon Web Services | 2023
- React Developer Certification | Meta | 2022
- Node.js Certified Developer | OpenJS Foundation | 2021
- Scrum Master Certification | Scrum Alliance | 2020

Achievements

- Led team that won "Best Innovation" award at TechCorp hackathon 2023
- Increased team productivity by 30% through implementation of code review process
- Reduced customer support tickets by 25% through improved error handling
- Contributed to open-source projects with over 1,000 GitHub stars

Languages

- English (Native)
- French (Fluent)
- Spanish (Conversational)

Volunteer Experience

Code Mentor | Girls Who Code Montreal | 2020 - Present

- Mentor young women interested in technology careers
- Teach programming fundamentals and web development
- Organize coding workshops and career guidance sessions

Interests

- Open Source Contribution
- Tech Blogging
- Photography
- Hiking and Outdoor Activities
- Continuous Learning and Professional Development
